Subject: Info in preparation for Wednesday's meeting

Mike,

Good to talk with you.

As I indicated on the phone, I have asked Rob and Jerry to pull together some information for our meeting as follows:

3 examples of aquifer exemption application, each highlighting different features or characteristics typical of what we will be facing in many applications forthcoming. (These may not be ready by Wednesday, but they are the top priority).

The number of well permits DOGGR has granted in each of the past 5 years into non-exempt aquifers

The number of injection wells into the aquifers “exempted” in the 1985 Covington letter.

Though there is a limit to what we can get done between now and then, please let us know if there are additional data that would be necessary for our meeting Wednesday.

Steve
